

Microsoft Advertising Insights

Improving your Financial Services ad performance with
the Microsoft Audience Network

Microsoft Advertising. Intelligent connections.

It's a new age for **privacy**

87% of people in the U.S. believe that **privacy is a right**, not a privilege¹

Brands and publishers invested U.S.\$19.7B in audience data and activation in the U.S. alone²

Regulations and consumer demand will change how brands collect and use data to engage with audiences

1. "Uncovering the trust drivers," Microsoft Advertising and LRW Research, 2019 (U.S.). 2. "The state of data," IAB, July 2020.

Brands will need a **new** data strategy to meet their goals

A greater emphasis on first-party data

Importance of logged-in activity

A new reliance on context and behavior

Publishers and brands working more closely

New ways to track the decision journey

Market with a purpose to build trust with your customers

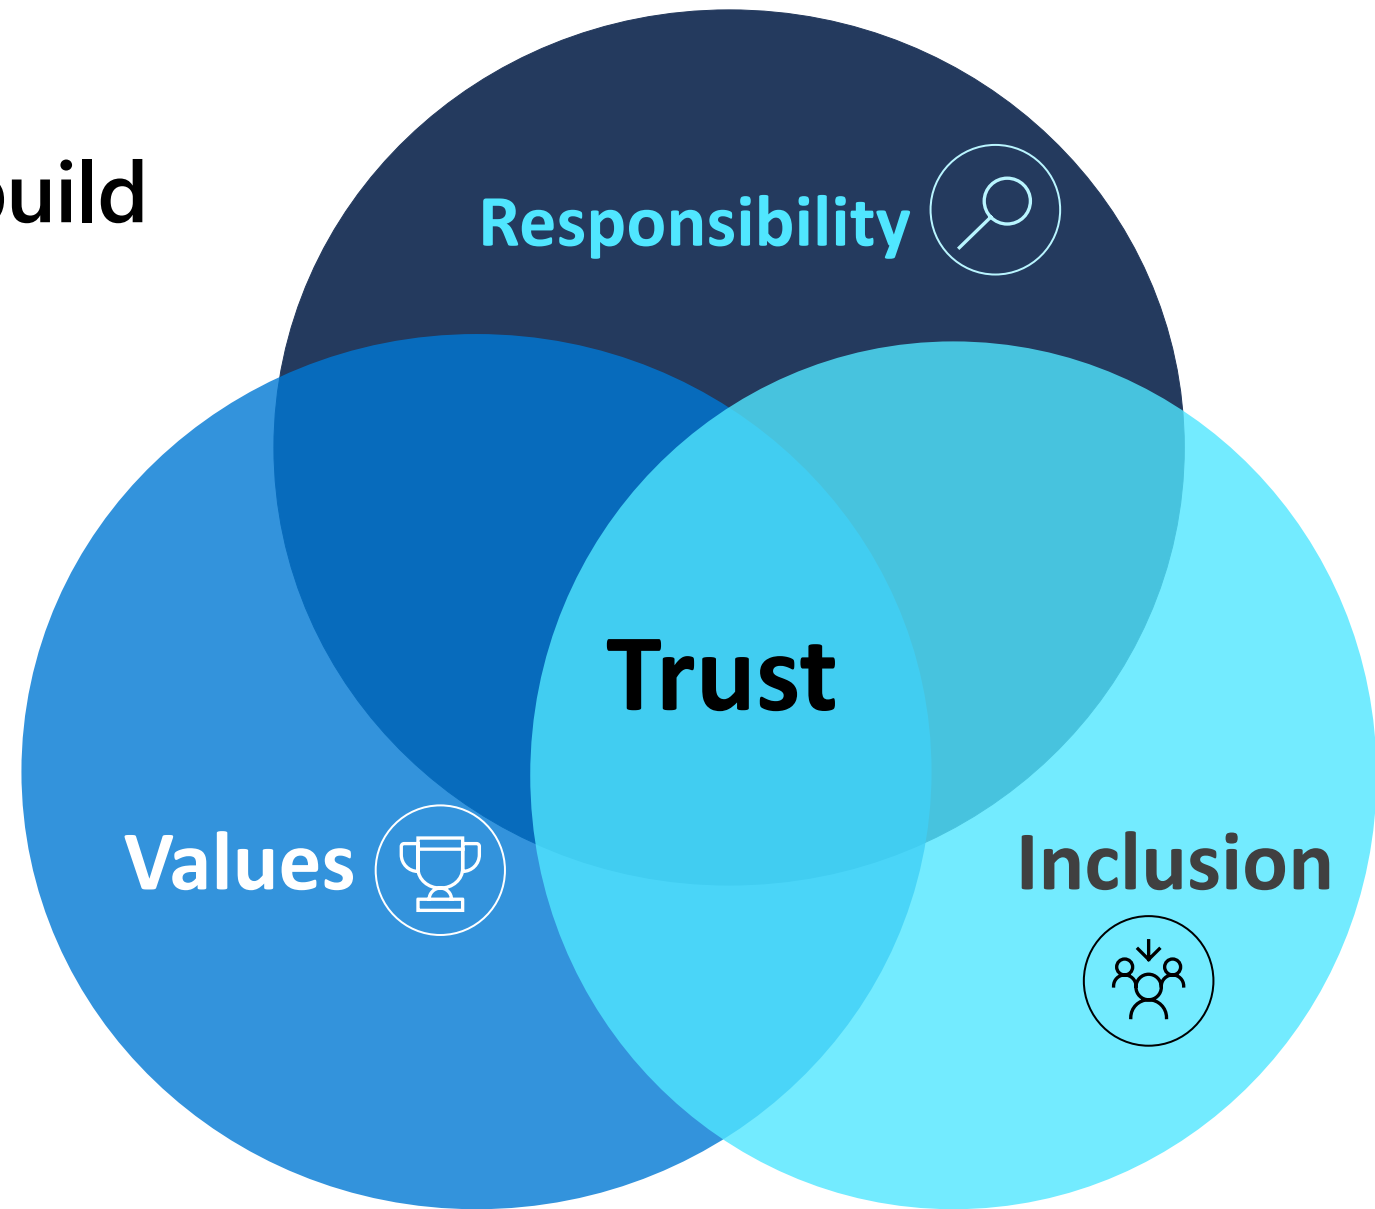

Focus on your responsibility to employees and consumers

Values should be more about the consumers you serve and less about the products you offer

Inclusion creates authentic connections

Microsoft's Audience Intelligence (AI) uses first-party data to identify consumer intent and drive performance

AI powered by billions of first-party data signals to identify the right permissioned audience

1. Microsoft internal data, June 2020, (<https://news.microsoft.com/bythenumbers/en/windowsdevices>). 2. comScore, August 2018. 3. Omnicore, May 2019. 4. Microsoft internal data.

Financial Services Ad Effectiveness Study

Users exposed to both Microsoft Search ads & Microsoft Audience ads are **more likely to visit a Financial Services advertiser's website** compared to those who are exposed to only one type of ad.

Notes: Results may vary for each advertiser based on campaign settings, targeted audiences, and other factors. Metrics represent an average of all Financial Services advertisers with lift studies to date (Feb. 2021). These advertisers may be a non-representative sample of all advertisers on the marketplace. Lift measured between exposed users and a control group of eligible unexposed users, with lift represented on a per-user basis. Average user count per advertiser study = 1.07M

“The (marketing) funnel is fed from the top, so generating fireworks and brand equity at the awareness stage will ultimately drive higher conversion rates, more leads and ultimately, more sales.”

- MarTech

Audience ad exposure helps
advertisers achieve greater...

Hypothesis:

Microsoft Audience Ads in
native environments drive a lift
in engagement at every step of
the marketing funnel for
Financial Service advertisers

In order to test our hypothesis, we compared online search behavior between those who saw Microsoft Audience Financial Services ads and those who did not

EXPOSED

Exposed to an advertiser's Microsoft Audience Ads

Search behavior and
site visitation/conversion

CONTROL

Eligible, but not exposed to an advertiser's Microsoft Audience Ads

Search behavior and
site visitation/conversion

Group 1

Exposed to both brand's Microsoft Audience Ads and search ads

Group 2

Exposed to brand's Microsoft Audience Ads only

Group 3

Exposed to brand's search ads only

Group 4

No brand ad exposure

We set out to prove that users exposed to Microsoft audience ads engaged with brands at a higher rate

Financial Services Ad Effectiveness Study

AWARENESS

1.8x

*Lift in brand awareness
per user, measured by
post-exposure brand
search rate*

CONSIDERATION

1.9x

*Lift in brand consideration per
user, measured by post-
exposure domain visit rate*

CONVERSION

4.0x

*Lift in brand purchase per
user, measured by post-
exposure conversion page
visit rate*

Notes: Results may vary for each advertiser based on campaign settings, targeted audiences, and other factors. Metrics represent an average of all Financial Services advertisers with lift studies to date (Feb. 2021). These advertisers may be a non-representative sample of all advertisers on the marketplace. Lift measured between exposed users and a control group of eligible unexposed users, with lift represented on a per-user basis. Average user count per advertiser study = 1.07M

Achieve greater brand awareness

AWARENESS

1.8x

Overall lift in brand awareness per user, measured by post-exposure brand search rate

Lead with In-Market and Similar audiences for widest reach of net-new users

Leverage KPIs that align with your strategy

Use Image & Video assets known for driving high awareness in other channels

Notes: Results may vary for each advertiser based on campaign settings, targeted audiences, and other factors. Metrics represent an average of all Financial Services advertisers with lift studies to date (Feb. 2021). These advertisers may be a non-representative sample of all advertisers on the marketplace. Lift measured between exposed users and a control group of eligible unexposed users, with lift represented on a per-user basis. Average user count per advertiser study = 1.07M

Achieve greater brand **consideration**

CONSIDERATION

1.9x

*Overall lift in brand
consideration per user,
measured by post-
exposure domain visit rate*

**Allocate additional budget
toward campaigns during
peak seasonal periods**

**Actively monitor &
optimize bids, budget
levels, & share of voice**

**Promote brand value
proposition with
memorable ad copy to drive
future engagement**

Notes: Results may vary for each advertiser based on campaign settings, targeted audiences, and other factors. Metrics represent an average of all Financial Services advertisers with lift studies to date (Feb. 2021). These advertisers may be a non-representative sample of all advertisers on the marketplace. Lift measured between exposed users and a control group of eligible unexposed users, with lift represented on a per-user basis. Average user count per advertiser study = 1.07M

Achieve greater **conversions** for your brand

CONVERSION

4.0x

Overall in brand conversion per user, measured by post-exposure conversion page visit rate

Target & Bid Remarketing & Custom Audiences to upsell converters

Monitor domain level performance and exclude low-performing domains if necessary

Leverage feed-based ads to engage users with specific products they've researched

Notes: Results may vary for each advertiser based on campaign settings, targeted audiences, and other factors. Metrics represent an average of all Financial Services advertisers with lift studies to date (Feb. 2021). These advertisers may be a non-representative sample of all advertisers on the marketplace. Lift measured between exposed users and a control group of eligible unexposed users, with lift represented on a per-user basis. Average user count per advertiser study = 1.07M

We recommend using a combination of In-market Audiences and Remarketing for best performance

Financial Services Ad Effectiveness Study

IN-MARKET
AUDIENCES

saw a

2.8x

lift compared to 1.8x
overall awareness lift

IN-MARKET
AUDIENCES

saw a

6.8x

lift compared to 1.9x
overall consideration lift

REMARKETING

saw a

4.3x

lift compared to 4.0x
overall conversion lift

Notes: Results may vary for each advertiser based on campaign settings, targeted audiences, and other factors. Metrics represent an average of all Financial Services advertisers with lift studies to date (Feb. 2021). These advertisers may be a non-representative sample of all advertisers on the marketplace. Lift measured between exposed users and a control group of eligible unexposed users, with lift represented on a per-user basis. Average user count per advertiser study = 1.07M

Lift in brand awareness per user is measured by post-exposure brand search rate, lift in brand consideration per user is measured by post-exposure domain visit rate and lift in brand conversion is measured by post-exposure conversion page visit rate

- Integration with 3rd party tools through **1x1 Impression tracking**

Ease of Use

- Ease of getting started through **Google & Facebook Import** tools
- Partnership with **Shutterstock** giving you access to over 300 million images

Key takeaways and recommendations

Brands should be consistently evolving in how they source their data and use it to target consumers

Reach your audience in brand-safe environments through Microsoft Audience Network

Our survey showed that combining search and native strategies can help push consumers down the marketing funnel

As predicted, users exposed to Microsoft Audience ads in the automotive industry showed higher brand lift than those who were in the control group

In-market Audiences performed best in upper and mid funnel stages, while Remarketing was strongest in lower funnel

Take advantage of our In-market audience solution where you can target those ready to buy and send them reminders using Remarketing

Appendix

Methodology

Used experimental design principles to evaluate impact of Microsoft Audience Ads

EXPOSED

Exposed to an advertiser's Microsoft Audience Ads

Search behavior and
site visitation/conversion

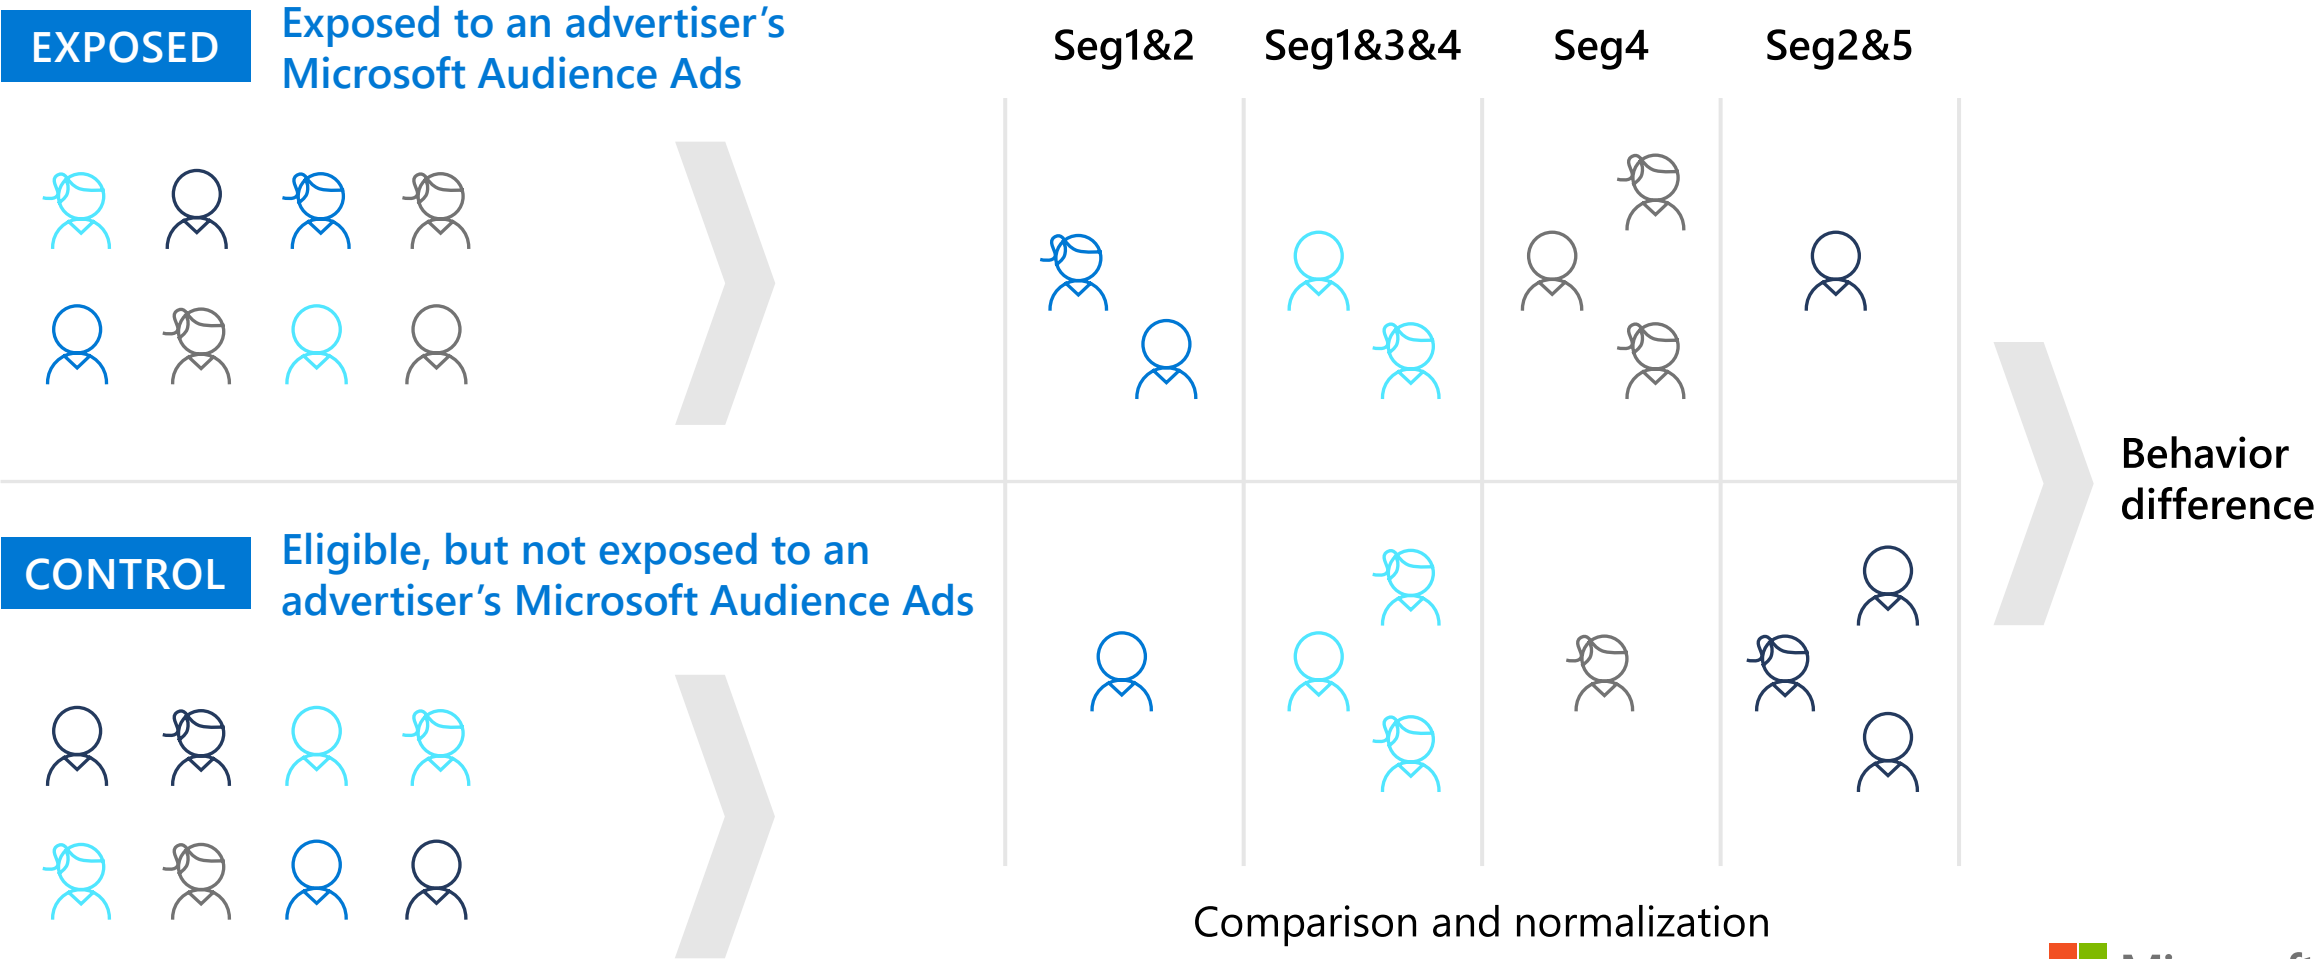

CONTROL

Eligible, but not exposed to an advertiser's Microsoft Audience Ads

Search behavior and
site visitation/conversion

User segmentation and normalization are applied to ensure exposed and control groups are comparable

When connecting our **Audience Network** with our **Search Network**, we can measure the true value of advertising with Microsoft

Group 1

Exposed to both brand's Microsoft Audience Ads and search ads

Group 2

Exposed to brand's Microsoft Audience Ads only

Group 3

Exposed to brand's search ads only

Group 4

No brand ad exposure

*The visual is to give representation of the four different audience breakouts and is not to scale.
