Auto click trends (US)

April 6, 2020
Vertical clicks declined 0.8% week over week (WoW) and slipped into negative territory the first time year to date (YTD), year over year (YoY)

Clicks were driven down this past week by Tiers 1, 2 and 3. Tier 1 clicks (18% of vertical clicks) were down 11% WoW. Parts & Service clicks (24% of vertical clicks) saw their first increase in four weeks, up 10% WoW.
Tier 1 clicks dropped 11% WoW but are up 26% YoY

This year, WoW
-11.1%

Last year, WoW
-9.2%

This week, YoY
26.2%

YTD, YoY
15.8%

Tier 1’s sharpest decline so far this year was driven primarily by economy original equipment manufacturers (OEMs), down 10.7% WoW, while luxury OEM clicks were down 5% WoW.

18% of vertical clicks

Microsoft Internal Data. Weeks run Saturday-Friday. Week 13 for 2020 is March 28 – April 3.
Tier 2 clicks continued to trend downward, -14% WoW

Tier 2 clicks have maintained substantial 60% YTD, YoY growth, though weekly YoY margins continue to diminish.

Microsoft Internal Data. Weeks run Saturday-Friday. Week 13 for 2020 is March 28 – April 3.
Tier 3 clicks declined 4% WoW and dipped below weekly 2019 levels for the first time this year.

Tier 3 click decline this past week was driven by economy brands, which saw clicks drop 13% WoW. Luxury brands were up 4.8% WoW.
3rd-party clicks increased for the second straight week, up 3.4% WoW

After declining four consecutive weeks, 3rd-party clicks have now risen two weeks in a row. Though, the weekly YoY gap remains significant, as YTD, YoY clicks are down 27%.

19% of vertical clicks

Microsoft Internal Data. Weeks run Saturday-Friday. Week 13 for 2020 is March 28 – April 3.
Parts & Service clicks increased for the first time in four weeks, up 10% WoW

Parts & Accessories clicks, which made up 70% of subvertical clicks this past week, were up 7.4% WoW. Service & Repair clicks, which made up 26% of subvertical clicks, were up 14% WoW.
Audio Equipment clicks were up 49%, and Body Repair clicks were up 29%, WoW

Motor Oil clicks were down 17%, and Tire & Wheel Repair clicks were down 24%, WoW
In summary, we saw Parts & Service and 3rd-party clicks each increase for the second consecutive week, while Tiers 1, 2 and 3 all declined WoW. For Tier 1, we saw the sharpest WoW decline so far this year following two very strong weeks of click growth.

Microsoft Internal Data. Weeks run Saturday-Friday. Week 13 for 2020 is March 28 – April 3.
## Checklist

**Immediate actions**

### Ads
- Check the extensions you're using. Use "delivery, curbside pickup, other services" that are unique and applicable to your business.
- Shopping: Adjust product group bidding strategy to align with your inventory dynamics.
- Shopping: Keep your product feed files up to date as product inventory and prices may change rapidly.
- Automatically test different messaging by adding Responsive Search Ads (RSA) to your ad groups. Add assets with "delivery options."
- Check your editorial rejections as COVID-19-related terms are disallowed.
- Check your text ads. Replace any standard text ads with [Expanded Text Ads](https://www.bing.com/) and RSA (standard text ad volume will begin to decline April 1).
- Search partners: Review publisher reports to optimize performance on the search partner network.

### Keywords
- Use “Broadience” (broad match + audience targeting) to help you efficiently expand reach and identify new opportunities.
- Add keywords with terms around delivery, curbside pickup, fees waived, etc. as fit for your business (note “COVID-19” terms are restricted).
- Review your search term reports for emerging queries to add as keywords or add negatives to avoid poor performance.
- To capture emerging queries, create or reactivate Dynamic Search Ads (DSA) as a “catchall” with a lower bid and use discoverability tools like [Microsoft Advertising Intelligence](https://ads.microsoft.com/) and [Keyword Planner](https://ads.microsoft.com/keyword-planner).
- Revamp your branded strategy and consider broad match on your core brand terms to cover highly relevant emerging queries.

### Audience
- Create Remarketing lists with more recent frequencies (ex: 1, 3, 7, 14, 30 days) to target customers still looking to purchase.
- Use In-market Audiences to target customers who are in-market for your product (especially for areas of opportunity for you).
- If you're using Shopping Campaigns, make sure you have Product Audiences (dynamic remarketing) set up to help increase performance.
- Optimize your Audience Ads campaign and reach people where they are today while navigating the web and news sites at home.
- Add images to your search campaign, so your ads can serve on the Microsoft Audience Network and get in front of more potential customers.
- Refine targeting settings to reflect consumer trends for your business around geographies, time of day, etc. Use the [Bing COVID-19 Tracker](https://www.bing.com/) to help.

### Bidding
- Balance between using automation and manual reviews. Monitor auto-bidding, but keep a close eye to adapt to a fluctuating marketplace.
- Monitor SOV/click share and adjust bids, especially where you see opportunities with less competition in the marketplace during this time.
- Review your smart targets, adjusting as needed if your targets shift (ex: target conversion rates). Layer Enhanced CPC on top of manual bids.

### Budget
- Check budgets in the Microsoft Advertising Interface daily. Watch for budget pause notifications, which may not show up in bid management tools.
- Reallocate budget to your best-performing campaigns and products as performance fluctuates with emerging trends.
- Keep campaigns running at a lower CPCs and lower budget to capitalize on decreased marketplace competition, instead of pausing campaigns.
Checklist

Restoration strategies

Ads
- Ad rotation should be set to optimize.
- Check your editorial rejections as COVID-19-related terms are disallowed.
- Begin the (required) move to Expanded Text Ads and add Responsive Search Ads (RSA) to your ad groups as an efficient way to swiftly change your text ad messaging.
- Use ad customizers and IF functions where applicable. Use audiences to land effective messaging.
- Shopping: Use Local Inventory Ads to indicate availability of items and adjust product group bids based on inventory changes.
- Shopping: As your inventory levels grow, re-evaluate your product group strategy and product prioritization to meet your campaign goals.
- Check the extensions you’re using. Use “delivery, curbside pickup, other services” that are unique and applicable to your business.

Keywords
- Monitor keyword recommendations specific to your account surfaced in Microsoft Advertising user interface.
- Continue to use “Broadience” (broad match + audience targeting) to help you expand reach and identify new opportunities after the initial period of greater volatility has passed.
- Reevaluate strategy on keywords around delivery, curbside pickup, fees waived (COVID-19-terms are restricted).
- To capture newly emerged queries, create or reactivate Dynamic Search Ads (DSA) as a “catchall” with a lower bid and use tools like Microsoft Advertising Intelligence and Keyword Planner.

Audience
- Reevaluate Remarketing list frequencies (ex: 1, 3, 7, 14, 30 days) to target customers still looking to purchase.
- Use In-market Audiences to target customers who are in-market for your product (especially for areas of opportunity for you).
- Use Product Audiences (dynamic remarketing) to maximize the performance of your shopping ads.
- Create a separate Audience Ads campaign to reconnect with your ideal audience in high-quality and brand-safe native placements.
- Add images to your search campaigns to expand your audience reach and drive increased performance.
- Refine targeting settings to reflect consumer trends for your business around geographies, time of day, etc. Use the Bing COVID-19 Tracker to help.

Bidding
- Once the market has “leveled” out and fluctuations have lessened, begin moving back to automated bidding with adjusted targets.
- When using manual bids, monitor SOV to adjust bids and leverage ECPC.
- Ensure you are setup for real-time success if you are re-entering the auction by leveraging first page bid recommendations in the UI.

Budget
- Begin planning for increases (or decreases) in campaign budgets as the markets shifts from greater volatility to a new normal.
- Monitor SOV to adjust budgets based on new trends, inventory, etc.
### Feeds
- Send a complete feed with all product offers and include recommended fields – GTIN, MPN, Brand, Color, Size, Shipping Cost, Multiple Images, and more.
- Optimize product titles and descriptions for improved product matching and relevance. Use the Search Term Report at the offer level for relevant terms to include and test.
- Leverage Custom labels in your feed to customize your product groups to meet your business goals.
- Import your Google product offerings to Microsoft Merchant Center to mirror your campaigns from Google.
- Schedule automatic downloads of product feeds to keep your prices and inventory fresh.
- Once stores open again, use Local Inventory Ads to drive traffic to your physical stores. Also a great option for the Shop online, pick up in store trend.

### Merchant Center
- Schedule your Merchant Promotions and include any relevant promotional codes.
- Opt into Automatic item updates for price and/or availability to ensure your Product Ad details match the customer experience on your landing pages.
- Use the new List view for ad groups to easily see your product group taxonomy and make bulk operations to your product groups like bid changes by percentage or filter products.
- Campaign priority settings (low, medium, high) give you more control over which campaigns and products take precedent.

### Audience
- Product Audiences (dynamic remarketing) can help you take your shopping ads to the next level with increased performance.
- Use Product Ads on the Microsoft Audience Network to expand your reach and get your products in front of customers where they are today.

### Reporting
- Review share of voice metrics with Click share and Absolute top impression share reporting to see how traffic volume compares to your competitors.
- Use the Product match count reporting to identify product serving issues within your feed and campaigns.
- Easily add negative keywords from your search term reports to filter unqualified traffic to your Product Ads.
- Regularly review your Product negative keyword conflicts report to ensure negative keywords are not limiting how your Product Ads are serving.
- Check your feed error reports to trouble shoot rejections and resubmit corrections.
- Review the Untargeted offers report to confirm all product offers are targeted by a campaign. An All Products as a catch-all bucket for new products or low-bid products is recommended.
- Review your Product partition report to view product group performance and use the Product dimensions report to see product SKU level performance.

### Bidding
- Balance between using automation and manual reviews. Monitor auto-bidding but keep a close eye to adapt to a fluctuating marketplace.
- Adding Enhanced CPC will leverage auction-time signals and increase the likelihood of clicks driving conversions.
- Test new auto bidding pilots for Shopping: Maximize Clicks and Target Return on Ad Spend (ROAS)

### Budget
- Plan budgets to meet the increased traffic demands by monitoring SOV.
- Allocate additional budget to your current best-performing and products.
- Monitor your daily budgets and adjust as needed with the changing environment.
